HONDURAS: Leonardo Miranda – second of two campesino political prisoners brothers ñ has been released, after more than three years of illegal detention, including torture and continued attacks against his home community of Montana Verde. If you read espanol, please read the communiquÈ, below, by COPINH, the community based group in Honduras that has taken the lead on work to force the release of these political prisoners.

THANK-YOU to all who gave funds for this work, wrote urgent action letters, visited the prisoners and their home community of Montana Verde on Rights Action delegations.

This is a hard-fought-for release from illegal and torturous detention. The underlying impunity and violations and abuses of the powerful sectors – many of who are partner with Canadian and U.S. government and business interests promoting ifreeî trade, mining, tourism, etc. – has not ended.
